What if there is only an economy where every giving is also a taking, and every taking is also a giving? This book extends the question of economies by making a case for an "economy of thought" and a "political economy." It argues that all

developed against the Enlightenment dir

thinking and doing presupposes taking, and therefore giving, as the price to pay for taking; or that there exists a "cost of living," which renders the idea of free thinking and living untenable. The argument is
