Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. The staple approach -- pt. 2. Early staples, agriculture and finance -- pt. 3. Transition to industrial capitalism -- pt. 4. Growth and stagnation in the twentieth century.
Sommario/riassunto	Contemporary methodologies include the "cliometric" style of historical analysis, econometrics, labour and regional study, and the changing parameters of government spending and public finance. The juxtaposition of classic theoretical statements with works by "outsiders" such as G.S. Kealey, B.D. Palmer, R.T. Naylor, R.E Ommer, among others, makes this a solid yet innovative record of the progress in economics over the last forty years. Canadian Economic History remains an essential classroom text.
