Sommario/riassunto

The worldwide financial crisis has sent shock-waves of accelerated economic restructuring, regulatory reorganization and sociopolitical conflict through cities around the world. It has also given new impetus to the struggles of urban social movements emphasizing the injustice, destructiveness and unsustainability of capitalist forms of urbanization. This book contributes analyses intended to be useful for efforts to roll back contemporary profit-based forms of urbanization, and to promote alternative, radically democratic and sustainable forms of urbanism. The contributors provide cu
