ISBN	1-139-63746-0 1-316-08644-5 1-139-64164-6 1-139-64926-4 1-139-63880-7 0-511-72220-6 1-139-64830-6
Descrizione fisica	1 online resource (xxii, 749 pages) : digital, PDF file(s)
Collana	Cambridge medicine
Disciplina	616.02/52
Soggetti	Outdoor medical emergencies First aid in illness and injury
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. I. Expedition planning -- pt. II. Expeditions in unique environments -- pt. III. Illness and injuries on expeditions.
Sommario/riassunto	With an increase in visits to remote and dangerous locations around the world, the number of serious and fatal injuries and illnesses associated with these expeditions has markedly increased. Medical personnel working in or near such locations are not always explicitly trained in the management of unique environmental injuries, such as high-altitude sickness, the bends, lightning strikes, frostbite, acute dehydration, venomous stings and bites, and tropical diseases. Many health care professionals seek training in the specialty of wilderness medicine to cope with the health risks faced when far removed from professional care resources, and the American College of Emergency Medicine has recently mandated that a minimum level of proficiency needs to be exhibited by all ER physicians in this discipline. This book covers everything a prospective field physician or medical consultant needs to prepare for when beginning an expedition and explains how

to treat a variety of conditions in a concise, clinically oriented format.

2. Record Nr.	UNINA9910790469203321
Autore	Jung C. G.

Nota di contenuto	Frontmatter -- Table of Contents -- Foreword to the 2010 Edition -- Introduction -- I. Psychological Aspects of the Mother Archetype -- II. Concerning Rebirth -- III. The Phenomenology of the Spirit in Fairytales -- IV. On the Psychology of the Trickster-Figure -- Bibliography -- Index -- Princeton/Bollingen Paperback Editions
Sommario/riassunto	One of Jung's most influential ideas has been his view, presented here, that primordial images, or archetypes, dwell deep within the unconscious of every human being. The essays in this volume gather together Jung's most important statements on the archetypes,

beginning with the introduction of the concept in "Archetypes and the Collective Unconscious." In separate essays, he elaborates and explores the archetypes of the Mother and the Trickster, considers the psychological meaning of the myths of Rebirth, and contrasts the idea of Spirits seen in dreams to those recounted in fairy tales. This paperback edition of Jung's classic work includes a new foreword by Sonu Shamdasani, Philemon Professor of Jung History at University College London.
