

1. Record Nr.	UNINA9910790527203321
Autore	Redman Barbara Klug
Titolo	Research misconduct policy in biomedicine : beyond the bad-apple approach // Barbara K. Redman
Pubbl/distr/stampa	Cambridge, Massachusetts : , : The MIT Press, , [2013]
ISBN	0-262-31776-1 0-262-31775-3
Descrizione fisica	1 online resource (209 p.)
Collana	Basic bioethics
Disciplina	610.72/4
Soggetti	Medicine - Research - Corrupt practices Medical scientists - Professional ethics Medical research personnel - Professional ethics Biotechnology - Research
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Series Foreword; Introduction; 1 Has Something Important Happened to Scientific Ethics?; 2 Will Approaches from the Psychosocial and Organizational Sciences Improve Research Misconduct Regulation?; 3 What Combination of Regulatory Tools Will Minimize Research Misconduct?; 4 Are Current Publication Standards Protecting the Integrity of the Scientific Record?; 5 Lessons from Clinical Case Studies in Research Misconduct; 6 Research Misconduct Policy, Its Evolution and Culture of Morality; 7 The Unity of Moral Science; References; Index; Basic Bioethics
Sommario/riassunto	Federal regulations that govern research misconduct in biomedicine have not been able to prevent an ongoing series of high-profile cases of fabricating, falsifying, or plagiarizing scientific research. In this book, Barbara Redman looks critically at current research misconduct policy and proposes a new approach that emphasizes institutional context and improved oversight.
