Sommario/riassunto	Human beings change constantly; we are in an endless state of flux as we grow, mature, learn, and adapt to a myriad of physical, environmental, social, educational, and cultural influences. Change can be thought of as planful when it is motivated by the desire to be and feel different, such as the change that comes about as a result of deliberate intervention, usually initiated by a troubled individual and aided by another, typically a professional. In How and Why People Change Dr. Ian M. Evans revisits many of the fundamental principles of behavior change in order to deconstruct what it is we
