Sommario/riassunto	In modern masonry work it is customary to use large size blocks in building. They fulfil all the construction requirements even in singlelayer outside walls. Using two houses as examples all details are presented clearly and comprehensively in a scale of 1:10. In modern masonry work it is customary to use large size blocks in building. They fulfil all the construction requirements even in singlelayer outside walls. Using two houses as examples all details are presented clearly and comprehensively in a scale of 1:10. The authors elucidate on critical points, showing where care should be given to achieve convincing sustainable results.
