## Sommario/riassunto

Elections provide a tremendous opportunity for national transformation and the pursuit of democratic practice. They can be a moment of national renewal. However, in most of Africa elections are often characterized by violent conflict as politicians seek to capture or maintain power through ethnic mobilization, propaganda and misrepresentation. Considering opportunities offered by information technology especially mobile phones and the discovery of extensive natural resources, Africa has an opportunity to significantly change the lives of ordinary citizens. But this transformation requires that
