Note generali	First published 2012 by Ashgate Publishing.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Geographies of wealth and risk accumulation : neoliberal policy and resource instrumentalism -- pt. 2. Unanticipated vulnerabilities : sustainability planning, environmental movements, and activism -- pt. 3. Vulnerabilities in the urbanizing context : cultural and demographic transformations.
Sommario/riassunto	Bringing together an interdisciplinary team of scholars, this edited volume illustrates how and why cities are comprised by a mosaic of vulnerable human and ecological communities. Case studies range across various international settings and reveal how "urban vulnerabilities" is an effective metaphor and analytic lens for advancing political ecological theories on the relationship between humans and the environment in urban settings
