Sommario/riassunto	It is said that words are like people: One can encounter them daily yet never come to know their true selves. This volume examines what words are how they exist in religious phenomena. Going beyond the common idea that language merely describes states of mind, beliefs, and intentions, the book looks at words in their performative and material specificity. The contributions in the volume develop the insight that our implicit assumptions about what language does guide the way we understand and experience religious phenomena. They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language.

#### Sommario/riassunto

Bart Ehrman--the New York Times bestselling author of *Misquoting Jesus* and a recognized authority on the early Christian Church--and Zlatko Plese--a foremost authority on Christian Gnosticism--here offer a valuable compilation of over 40 ancient gospel texts and textual fragments that do not appear in the New Testament. This comprehensive collection contains Gospels describing Jesus's infancy, ministry, Passion, and resurrection, and includes the controversial manuscript discoveries of modern times, such as the *Gospel of Thomas* and the most recent Gospel to be discovered, the *Gospel of Judas* I
