| Note generali | Description based upon print version of record. |
| Nota di bibliografia | Includes bibliographical references (pages 140-154) and index. |
| Nota di contenuto | Introduction -- From 'good governance' to governance that works -- The country contexts -- Maternal health : why is Rwanda doing better than Malawi, Niger and Uganda? -- The politics of policy incoherence and provider indiscipline -- The space for local problem-solving and practical hybridity -- Conclusion -- Bibliography -- index. |
| Sommario/riassunto | Drawing on in-depth empirical research spanning a number of countries in Africa, this path-breaking book controversially argues that externally imposed good-governance approaches make unrealistic assumptions about the choices leaders are able to make, while ignoring the potential for addressing causes rather than symptoms. It offers a comprehensive, critical examination of the institutional barriers to economic and social progress in Africa and makes a compelling plea for fresh policy thinking. |
