## Sommario/riassunto

The Adolescent Psychotherapy Treatment Planner, Fifth Edition is fully revised to meet the changing needs of mental health professionals. This time-saving resource now reflects DSM-5 diagnostic suggestions and detailed evidence-based treatment plan language required by many public funding sources, private insurers, and accrediting agencies. The Fifth Edition features treatment organized around 36 main presenting problems, including conduct disorder, chemical dependence, low self-esteem, suicidal ideation, ADHD, sexual acting out, and eating disorders. Its easy-to-use format helps
