| Sommario/riassunto      | The therapeutic relationship between clinicians and patients is what brings Relationship-Based Care to life. Within the world of health care, the act of therapeutic connection is not owned by any one profession. The responsibility to offer authentic and compassionate care to another human being is something we all share. In our chaotic and time constrained environments in which technical and complex demands prevail, clinicians struggle as they strive every day to connect with the patients and families in their care. See Me as a Person offers guiding principles and a practical methodology that |
