Evolutionism or diffusionism? -- Third part: Nature -- Chapter 6. Affinities -- Chapter 7. The biological model -- Chapter 8. The theory of correspondences -- Fourth part: Science -- Chapter 9. Personology and synthesizing the sciences -- Chapter 10. Holism: What is a whole? -- Conclusion -- Appendix -- Bibliography -- Index of names -- Index of subjects |
| Sommario/riassunto      | This book identifies the Romantic notion of the whole as the fundamental epistemological source of the notion of structure in the thinking of the Prague Linguistic Circle, primarily its Russian representatives, and studies what amounted to the slow, painful process of disengagement from the organicist metaphor in an intellectual world very different from Saussure's.  |
