| Sommario/riassunto | Over the years, many corporations have been trying to determine what they can and should do to contribute to the sustainability of the economic, social and ecological environment within which they operate. Corporate social responsibility has become a key senior management issue worldwide and an increasingly debated topic in China. This book aims at helping companies operating in China to better assess and exercise their corporate social responsibility (CSR) in specific contexts. The purpose of this book is to show that CSR has a strong economic |

pay back in the long run, that it is a key success
