Infarction; CHAPTER 50 Acute Myocardial Infarction; CHAPTER 51 Chronic Myocardial Infarction; CHAPTER 52 Microvascular Obstruction; CHAPTER 53 Transmural Myocardial Infarction; CHAPTER 54 Nontransmural Myocardial Infarction; B. Complications; CHAPTER 55 Ventricular Septal Rupture; CHAPTER 56 Left Ventricular Aneurysm

Sommario/riassunto

Based on the learning goals of the Society of Thoracic Radiology Curriculum in Cardiac Radiology, Cardiac Imaging presents core knowledge that must be learned to accurately and effectively interpret cardiac imaging studies. This book imparts essential facts about all imaging modalities and the basics of interpretation and technique in a concise and readable format. Part of the Rotations in Radiology series, this book offers a guided approach to imaging diagnosis. Each pathology is covered within a targeted discussion that reviews the definition, clinical features, anatomy and physiology, how t
