Sommario/riassunto	This volume is a collection of papers that advance our understanding of the metaphysics of powers - properties such as fragility and electric charge. The metaphysics of powers is a fast developing research field with fundamental questions at the forefront of current research, such as Can there be a world of only powers??What is the manifestation of a power??Are powers and their manifestations related by necessity? What are the prospects for dispositional accounts of causation? The papers focus on questions concerning the metaphysics of powers that cut
