Autoren / About the Contributors

Sommario/riassunto

Die Beiträge des Bandes zeigen, dass die disziplinäre Begegnung
zwischen Sprach- und Literaturwissenschaft weit mehr ist als eine
Tradition akademischer Institutionen. In 16 allgemein-theoretischen
und textbezogenen Analysen werden Berührungspunkte zwischen den
beiden Disziplinen beleuchtet, auch solcher institutioneller Art. Es
werden die Gemeinsamkeiten und Unterschiede zwischen
Alltagsdiskurs und Literatur herausgearbeitet und linguistische
Begrifflichkeiten auf literarische Texte angewandt. Dies betrifft Fragen
wie Sprechakt, Referenz, und Inferenz, die Strukturen und die Relevanz
des kognitiven und kulturellen Hintergrunds für beide Diskursformen,
Rhetorik und Perspektivierungen, Sprach- und Schreibstile, Gattungen
und andere Ebenen diskursiver Traditionen.

The Impact of Technologies on African Religions: A Theological Perspective -- 16. Technologization of Religion: The Unstoppable Revolution in the Zimbabwean Mainline Churches.

Sommario/riassunto

This book charts technological developments from an African ethical perspective. It explores the idea that while certain technologies have benefited Africans, the fact that these technologies were designed and produced in and for a different setting leads to conflicts with African ethical values. Written in a simple and engaging style, the authors apply an African ethical lens to themes such as: The Fourth Industrial Revolution, the moral status of technology, technology and sexual relations, and bioethics and technology. Beatrice Dedaa Okyere-Manu is Senior Lecturer in Applied Ethics in the School of Religion, Philosophy and Classics at the University of KwaZulu-Natal, South Africa, where she is also the Director of the Ethics Studies Department.
