

1. Record Nr.	UNINA9910791169303321
Autore	Reid Hannah
Titolo	Climate change and human development // Hannah Reid
Pubbl/distr/stampa	London, England : , : Zed Books, , ©2014 [London, England] : , : Bloomsbury Publishing, , 2021
ISBN	1-350-21921-5 1-78032-444-8 1-78032-440-5 1-78032-442-1
Descrizione fisica	1 online resource (298 p.)
Disciplina	338.9
Soggetti	Climatic changes - Developing countries Economic development - Environmental aspects Development studies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Climate change: what to expect -- Food and farming -- Water -- Health -- Energy -- Disasters -- The natural environment -- Cities -- Women -- Trade -- Migration -- Conflict -- What next.
Sommario/riassunto	"A rich compendium or real-life scenarios of how the world's poor are suffering from, but also coping with, climate change today. Drawing on case studies gathered by Up in Smoke - a powerful coalition of global environment and development organizations, including Greenpeace, Oxfam, Practical Action and WWF - this book provides new models for human development in a climate-change-constrained future, while also providing proposals for tackling climate change at the macro-level."
