Sommario/riassunto	This sixth volume of the CODESRIA Gender Series is a collection of discourses, perspectives, practices and policies on the role of the female gender in science and technology, particularly in the African context. Although widely advocated as the indisputable foundation for political and economic power in the modern world, science and technology remains marked by various layers and dimensions of gender inequality that work to the disadvantage of girls and women. Despite the fact that a lot of awareness has been created, and gender issues are now more readily acknowledged by various development
