Sommario/riassunto	The term 'New Generation' implies 'future generation, furnished with new Technologies and inventions.' The speed at which the existing Scenario is heading towards a new and newer progress, made in the sphere of technology, has also accelerated the process of Education and transformed the methodologies used. These developments have a great influence on the life of man; there is a growing inclination towards the Emerging Values and the new set-up of society. By and by, the age-old Means and methods of education are being replaced by the new ones.
