

1. Record Nr.	UNINA9910791470703321
Autore	Weeks W. F
Titolo	On sea ice [[electronic resource] /] / by W.F. Weeks; with W.D. Hibler III
Pubbl/distr/stampa	Fairbanks, : University of Alaska Press, c2010
ISBN	1-60223-101-X
Descrizione fisica	1 online resource (682 p.)
Altri autori (Persone)	HiblerW. D., III.
Disciplina	551.34/3
Soggetti	Sea ice Ice Nordpolarmeer Sudpolarmeer
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Introduction -- 2. Historical background -- 3. The ocean setting -- 4. An introduction to sea ice growth -- 5. Components -- 6. The phase diagram -- 7. Sea ice structure -- 8. Sea ice salinity -- 9. Sea ice growth: the details -- 10. Properties -- 11. Polynyas and leads -- 12. Deformation -- 13. Sea ice: seafloor interactions -- 14. Marginal ice zone -- 15. Snow -- 16. Ice dynamics -- 17. Underwater ice -- 18. Trends -- 19. Conclusions.
Sommario/riassunto	Covering more than seven percent of the earth's surface, sea ice is crucial to the functioning of the biosphere-and is a key component in our attempts to understand and combat climate change. With On Sea Ice, geophysicist W.F. Weeks delivers a natural history of sea ice, a fully comprehensive and up-to-date account of our knowledge of its creation, change, and function. The volume begins with the earliest recorded observations of sea ice, from 350 BC, but the majority of its information is drawn from the period after 1950, when detailed study of sea ice became widespread. Weeks de.

2. Record Nr.	UNINA9910254073503321
Autore	Madsen Birger Stjernholm
Titolo	Statistics for Non-Statisticians / / by Birger Stjernholm Madsen
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2016
ISBN	3-662-49349-7
Edizione	[2nd ed. 2016.]
Descrizione fisica	1 online resource (XXI, 185 p. 58 illus., 44 illus. in color.)
Disciplina	519.5
Soggetti	Statistics Social sciences - Statistical methods Statistics in Business, Management, Economics, Finance, Insurance Statistics in Social Sciences, Humanities, Law, Education, Behavioral Sciences, Public Policy Statistical Theory and Methods
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Preface -- 1 Data Collection -- 2 Presentation of Data -- 3 Description of Data -- 4 The Normal Distribution -- 5 Analysis of Qualitative Data -- 6 Error Sources and Planning -- 7 Assessment of Relationship -- 8 Comparing Two Groups -- 9 Appendices -- Index.
Sommario/riassunto	This book was written for those who need to know how to collect, analyze and present data. It is meant to be a first course for practitioners, a book for private study or brush-up on statistics, and supplementary reading for general statistics classes. The book is untraditional, both with respect to the choice of topics and the presentation: Topics were determined by what is most useful for practical statistical work, and the presentation is as non-mathematical as possible. The book contains many examples using statistical functions in spreadsheets. In this second edition, new topics have been included e.g. within the area of statistical quality control, in order to make the book even more useful for practitioners working in industry. .
