| Livello bibliografico   | Monografia   |
| Nota di bibliografia    | Includes bibliographical references and index.   |
| Nota di contenuto       | Preface; 1. Introduction; 2. Biotic Interactions in Soil as Drivers of Ecosystem Properties; 3. Plant Community Influences on the Soil Community and Plant-Soil Feedbacks; 4. Ecosystem Level Significance of Aboveground Consumers; 5. Aboveground and Belowground Consequences of Species Losses and Gains; 6. Underlying Themes and Ways Forward; References; Index |
| Sommario/riassunto      | This volume synthesises and evaluates recent advances concerning how species and their interactions influence terrestrial ecosystem processes, such as productivity, decomposition, nutrient cycling, and fluxes.  |
