

1. Record Nr.	UNINA9910791536303321
Autore	Stojanowski Christopher M (Christopher Michael), <1973->
Titolo	Biocultural histories in La Florida [[electronic resource]] : a bioarchaeological perspective // Christopher M. Stojanowski
Pubbl/distr/stampa	Tuscaloosa, : University of Alabama Press, c2005
ISBN	0-8173-8434-0
Descrizione fisica	1 online resource (208 p.)
Disciplina	304.6/09759/09032
Soggetti	Indians of North America - Missions - Southern States Indians of North America - Anthropometry - Southern States Indians of North America - Southern States - Population Missions, Spanish - Southern States - History Ethnoarchaeology - Southern States Human remains (Archaeology) - Southern States Dental anthropology - Southern States Florida History Spanish colony, 1565-1763 Southern States Antiquities
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [167]-184) and index.
Nota di contenuto	Historical bioarchaeology -- The setting : the Spanish mission system of La Florida -- Bioethnohistory -- Evolution and transmission of human tooth size -- Conceptual and research methods -- Demographic transformations among the Apalachee -- Aggregation and collapse on the Georgia coast -- Local and global histories.
Sommario/riassunto	Indigenous populations respond to colonial expansion. This book examines the effects of the Spanish mission system on population structure and genetic variability in indigenous communities living in northern Florida and southern Georgia during the 16th and 17th centuries. Data on tooth size were collected from 26 archaeological samples representing three time periods: Late Precontact (~1200-1500), Early Mission (~1600-1650), and Late Mission (~1650-1700) and were subjected to a series of statistical tests evaluating genetic variability. Predicted changes in phenotypic populatio
