Sommario/riassunto

The New World Order Ideology expressed in the form of neoliberal globalization has been used by numerous politicians, scholars and media men through the ages. It refers to a worldwide conspiracy to effect complete and total control over the planet through money farming. This book examines the case of Africa put directly on the chopping board as client states by this ideology n when less hampered by idealistic slogans as human rights, raising living standards and democratization n to better the achievement of the agenda of the money farmers whose goal is to establish government by loan operatio
