Nota di contenuto The emergence of drug testing -- The drug testing industry -- The detox industry -- Drug testing as social monitoring and control -- The politics of resistance.

Sommario/riassunto Drug testing has become the norm in many workplaces. In order to get a job, potential employees are required to provide their urine for testing. Pissing on Demand examines this phenomenon along with the resulting rise of the anti-drug testing movement, or the "detox industry," that works to beat these tests. Strategies include over-the-counter products like "body flushers" that sound innocent but are really designed to mask the presence of illegal drugs to kits advertised in pro-drug publications like High Times that make no bones about their real purpose. The first expose of the detox ind

- Sommario/riassunto** Pictures of animals are now ubiquitous, but the ability to capture

animals on film was a significant challenge in the early era of photography. In *Developing Animals*, Matthew Brower takes us back to the time when Americans started taking pictures of the animal kingdom, at the beginning of the twentieth century, the moment when photography became a mass medium and wildlife photography an increasingly popular genre. *Developing Animals* compellingly investigates the way photography changed our perception of animals. Brower analyzes how photographers created new ideas about animals as they moved fr
