Coates IV -- Exploring ex ante regulatory mechanisms for detecting prescription drug misuse / Stephen T. Parente -- Natural disaster management : earthquake risk and

hospitals' provision of essential services in California / Tom Chang and Mireille Jacobson.

Sommario/riassunto

The efficacy of various political institutions is the subject of intense debate between proponents of broad legislative standards enforced through litigation and those who prefer regulation by administrative agencies. This book explores the trade-offs between litigation and regulation, the circumstances in which one approach may outperform the other, and the principles that affect the choice between addressing particular economic activities with one system or the other. Combining theoretical analysis with empirical investigation in a range of industries, including public health
