ISBN	1-84779-712-1 1-78170-261-6 1-84779-378-9
Descrizione fisica	1 online resource (273 p.)
Disciplina	351.417 351.415
Soggetti	Civil service - Ireland - History - 20th century Ireland Politics and government 1910-1921 Ireland Politics and government 1922-1949
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Copyright; Contents; Acknowledgements; Abbreviations; Introduction; 1. The civil service and the State in Ireland, 1912-18; 2. Dublin Castle in crisis, 1918-21; 3. The revolutionary State, partition and the civil service, 1920-21; 4. The Provisional Government and the civil service, 1922; 5. Cumann na nGaedheal and the civil service, 1923-32; 6. Fianna Fail and the civil service, 1932-38; Conclusion: the civil service, the State and the Irish revolution; Appendix: Dail Eireann civil service, January 1919 to January 1922; Select bibliography; Index
Sommario/riassunto	This book is a history of the Irish civil service and its response to revolutionary changes in the State. It examines the response of the civil service to the threat of partition, World War, the emergence of the revolutionary forces of Dail Eireann and the IRA through to the Civil War and the Irish Free State. Questioning the orthodox interpretation of evolution rather than revolution in the administration of the State it throws new light on civil service organization in British-ruled Ireland, the process whereby Northern Ireland came into existence, the Dail

Titolo	Antiviral Agents
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2020
Descrizione fisica	1 online resource (386 p.)
Soggetti	Biology, life sciences Research and information: general
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Antiviral agents are used for the treatment of viral diseases. Antiviral drugs have been successfully developed and used clinically for a limited number of important human viral diseases notably caused by human immunodeficiency virus (HIV), hepatitis C virus (HCV), hepatitis B virus (HBV), herpes, and influenza viruses. Despite the successes of these antiviral drugs, issues with drug resistance and toxicity remain challenging. These challenges are driving research to identify new drug candidates and to investigate novel drug targets to develop new mechanistic drug classes. Antiviral agents are not available against many viruses that cause human disease and economic burdens; in particular, the development of antiviral agents against emerging, re-emerging, and neglected viruses is increasingly becoming a priority. This book includes six review articles that discuss new antiviral strategies. The reviews either discuss advances relating to a specific virus or new therapeutic targets and approaches. The book includes 15 original research articles reporting new antiviral agents against a variety of clinically and economically important viruses and studies into the prevalence or acquisition of drug resistance. Overall, this book is an</p>

exciting collection of new research and ideas relating to the development of antiviral agents.

3. Record Nr.	UNICAMPANIAVAN00274113
Autore	Gupta, Pradeep K.
Titolo	Nanotoxicology in Nanobiomedicine / PK Gupta
Pubbl/distr/stampa	Cham, : Springer, 2023
Descrizione fisica	XVII, 179 p. : ill. ; 24 cm
Disciplina	660.6 615.1 615.9 610.28 620.1
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
