Sommario/riassunto	Race and empire tells the story of a short-lived but vehement eugenics movement that emerged among a group of Europeans in Kenya in the 1930's, unleashing a set of writings on racial differences in intelligence more extreme than that emanating from any other British colony in the twentieth century. The Kenyan eugenics movement of the 1930's adapted British ideas to the colonial environment: in all its extremity, Kenyan eugenics was not simply a bizarre and embarrassing colonial mutation, as it was later dismissed, but a logical extension of British eugenics in a colonial context. By tracing the
