Soggetti	Italian language - Modality Italian language - Semantics Epistemics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references (p. [217]-229) and index.
Sommario/riassunto	This volume offers an original theoretical and methodological approach to the hotly debated issue of epistemic modality. The analysis is conducted in a rigorous typological frame developed after a careful consideration of a wealth of cross-linguistic data, and focuses on Italian, a language often disregarded in comparative analyses. The complexity of the Italian epistemic system provides relevant information that will undoubtedly foster a better understanding of the topic. A new definition of epistemic modality is proposed on a functional basis and the structure of the Italian epistemic system.

3. Record Nr.	UNINA9910975140203321
Titolo	History and strategy // edited by Steven J. Kahl, Brian S. Silverman, Michael A. Cusumano

Sommario/riassunto

Business historians and economic historians frequently contribute to our understanding of strategic management, and strategy scholars often rely on a deep understanding of historical context to make sense of classic strategy issues. Historically, the two sets of scholars have not always communicated with each other as effectively as one might hope. They also have different approaches to methodology and assessment of validity of results, which adds to this 'two solitudes'. In this volume, strategy scholars, business historians, and economic historians are brought together to develop a volume that explores the complementarities of approaches.
