Sommario/riassunto

This second edition graduate textbook and reference guide for nurses presents a practice-focused intervention from the notable Artinian Intersystem Model. While the first edition focused largely on theory, this second editions seeks to integrate both theory and practice to ultimately help enhance the nurse-patient relationship as well as nursing practice at large. The authors offer practical care plans at various levels of expertise across the continuum of care, from acute care to long term care to resolve concerns through joint decision making and to document interventions. The text establish
