

1. Record Nr.	UNINA9910791829803321
Titolo	Biogenic amines [[electronic resource]] : pharmacological, neurochemical and molecular aspects in the CNS // Tahira Farooqui and Akhlaq A. Farooqui, editors
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2010
ISBN	1-61761-575-7
Descrizione fisica	1 online resource (431 p.)
Collana	Pharmacology--research, safety testing and regulation series
Altri autori (Persone)	FarooquiAkhlaq A FarooquiTahira
Disciplina	615/.78
Soggetti	Biogenic amines Neuropharmacology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Biogenic amines : a historical perspective / Michael Gerald -- Life's requirements for catecholamines / Suzanne Roffler-Tarlov -- Aromatic L-amino acid decarboxylase / Maria Hadjiconstantinou ... [et al.] -- Striatal dopamine storage and utilization / Lane J. Wallace -- The importance of monoamine transporters in the development of psychopharmacology / Leslie Iversen -- Amine false transmitters, co-transmitters and volume transmission : fifty years of exceptions to the standard model of chemical neurotransmission / S. Robert Snodgrass -- Pharmacological approaches for the evaluation of drug-receptor related events / Norman J. Uretsky, Margarita Salazar-Bookaman, and Papat N. Patil -- What has 6-hydroxydopamine taught us about Parkinson's disease? / Michael J. Zigmond -- The molecular and genetic basis of Parkinson disease / Tahira Farooqui -- Modulation of neurotransmission signaling by neural membrane polyunsaturated fatty acids / Akhlaq A. Farooqui -- Estrogen-dopamine interactions in forebrain modulation of the sensorimotor gating / John J. Byrnes, Jacqueline T. Draper, and Elizabeth M. Byrnes -- Stereoselectivity of norepinephrine enantiomers at pre and post-junctional adrenoceptors / Vandana Kumari ... [et al.] -- Trace amines and their receptors comprise a novel vertebrate aminergic signalling system / Mark D. Berry, Jarrod Nickel, and Bruno

Tomberli -- Quantification of octopamine in invertebrate and vertebrate nervous systems / Tahira Farooqui -- Pharmacology of invertebrate octopamine and tyramine receptors / Thomas Roeder -- The cellular and molecular biology of octopaminergic neurons / Herman K. Lehman -- Perspective and future developments on biogenic amines in the CNS / Tahira Farooqui and Akhlaq Farooqui.
