

1. Record Nr.	UNINA9910791830603321
Titolo	Aggressive breast cancer [[electronic resource] /] / Regina H. DeFrina, editor
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2010
ISBN	1-61761-864-0
Descrizione fisica	1 online resource (276 p.)
Collana	Cancer etiology, diagnosis and treatments series
Altri autori (Persone)	DeFrinaRegina H
Disciplina	616.99/449
Soggetti	Breast - Cancer Breast - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	<p>""AGGRESSIVE BREAST CANCER ""; ""AGGRESSIVE BREAST CANCER "";</p> <p>""CONTENTS ""; ""PREFACE""; ""RESEARCH AND REVIEW ARTICLES"";</p> <p>""THE HER2 ONCOGENE IN BREAST CANCER ""; ""ABSTRACT "";</p> <p>""INTRODUCTION ""; ""HER PROTEIN RECEPTORS: SIGNAL TRANSDUCTION AND ONCOGENESIS ""; ""Intracellular Signaling Pathways ""; ""HER-Induced Cell Cycle Progression and Survival Pathways ""; ""OVER EXPRESSION OF HER2 AND THE PROGNOSIS OF INVASIVE BREAST CANCER ""; ""HER2 as A Prognostic Factor: Node-Positive Versus Node-Negative Disease""; ""HER Status and Lymphoid Infiltration ""</p> <p>""HER2 and Progression of Early Breast Cancer Lesions to Invasive Carcinomas""""Relationship Between HER2 and Estrogen Receptor Expression ""; ""HER2 ABNORMALITIES IN OTHER TYPES OF BREAST MALIGNANCIES ""; ""HER2 ABNORMALITIES IN OTHER TYPES OF BREAST MALIGNANCIES ""; ""Evaluating HER2 in Breast Tissue ""; ""HER2 TARGETED THERAPY IN BREAST CANCER ""; ""The Role of Trastuzumab in HER2 Overexpressing Breast Cancer ""; ""The Role of Pertuzumab in HER2 Overexpressing Breast Cancer ""; ""The Role of Trastuzumab-DM1 in HER2 Overexpressing Breast Cancer ""</p> <p>""Inhibiting Several HER Receptors: The Role of Lapatinib in HER2 Overexpressing Breast Cancer """"Circulating Serum HER2 Levels "";</p> <p>""PROPOSED RESISTANCE TO ANTI-HER2 THERAPIES ""; ""Altered Receptor-Antibody Interaction ""; ""Increased Signaling from other</p>

Receptors of the HER Family ""; ""Increased Signaling from other
Receptors Activating the MAPK and PI3K Pathways ""; ""Constitutive
Activation of Downstream Effectors ""; ""HER2 OVEREXPRESSION AND
CHEMOTHERAPY ""; ""Anthracyclines ""; ""Taxanes ""; ""HER2
OVEREXPRESSION AND HORMONAL THERAPY ""
""CNS DISEASE IN HER2 OVEREXPRESSED BREAST CANCER """"CNS
Metastases in Adjuvant Trials of Trastuzumab ""; ""Prognosis of CNS
Metastases in HER2 Overexpressing Breast Cancer""; ""CONCLUSION "";
""REFERENCES""; ""MULTI-DRUG RESISTANCE AS A PROBLEM
CHALLENGING BREAST CANCER CHEMOTHERAPY ""; ""ABSTRACT "";
""INTRODUCTION""; ""1) Non-Cellular MDR Mechanisms ""; ""2) Cellular
MDR Mechanisms: ""; ""1. Changes in the intracellular accumulation and
distribution of the drug ""; ""1a. Alteration of drug influx ""; ""1b.
Alteration of drug efflux ""; ""NORMAL TISSUE DISTRIBUTION""
""PHYSIOLOGICAL FUNCTIONS OF P-GP """"PHARMACOLOGICAL
FUNCTIONS OF P-GP ""; ""P-GP SUBSTRATES ""; ""2. Increase in Drug
Detoxification ""; ""3. Alterations of Drug Targets ""; ""4. Increase in
DNA Repair Mechanism ""; ""5. Changes in Key Genes Controlling Cell
Proliferation ""; ""5a. Changes in genes responsible for cell cycle control
""; ""5b. Abrogation of apoptosis ""; ""6. Micro-Environmental Stress-
Mediated Resistance of Solid Tumors ""; ""7. Cancer Cell Dormancy and
Resistant Cancer Stem Cells ""; ""MODULATION OF MDR PHENOTYPE ""
""I. Circumvention of Drug Resistance Induced by P-Gp Pump Protein ""
