Sommario/riassunto

The Fisher Investments On series is designed to provide individual investors, students, and aspiring investment professionals the tools necessary to understand and analyze investment opportunities—primarily for investing in global stocks. Each guide is an easily accessible primer to economic sectors, regions, or other components of the global stock market. While this guide is specifically on Health Care, the basic investment methodology is applicable for analyzing any global sector, regardless of the current macroeconomic environment. Following a top-down approach to investing, <i
