---

Sommario/riassunto

The present book describes the English language in all its facets as spoken in present-day Dublin, the capital of the Republic of Ireland. It covers the entire range of its history since the first arrival of English there several hundred years ago. Apart from the evolution of English in the capital, the book also concentrates on the significant changes which have been taking place in the speech of Dublin in the past 15 years or so. The rapid change of Dublin English is seen as a correlate to the many social and economic developments which have occurred in recent years. The type of linguistic
