politics and ethics of "using" "the homeless" in social justice research / Don Mitchell and Lynn Staeheli -- Conclusion: synthesizing the personal and professional / Trenna Valado -- Bibliography -- Index -- About the contributors.

Sommario/riassunto

This is the first book published that specifically examines questions of ethics and advocacy that arise in conducting research on homelessness, exploring the issues through the deeply personal experiences of some of the field's leading scholars. By examining the central queries from a broad range of perspectives, the authors presented here draw upon years of rich investigations to generate a framework that will be instructive for researchers across a wide spectrum of areas of inquiry.
