Sommario/riassunto

This edited volume presents fresh empirical research on the emerging outcomes of China's law reforms. The chapters examine China's 'going out' policy by addressing the ways in which the underpinning legal reforms enable China to pursue its core interests and broad international responsibilities as a rising power. The contributors consider China's civil and commercial law reforms against the economic backdrop of an outflow of Chinese capital into strategic assets outside her own borders. This movement of capital has become an intriguing phenomenon for both ongoing economic reform and its lar
