Sommario/riassunto	"Ultrasound Q&A Review for the Boards by esteemed radiologist and educator Adrian Dawkins and an impressive array of authors, delivers a robust test prep. Employing a self-evaluation approach, the book presents fundamental and practice-oriented concepts in ultrasound. The overall layout mirrors the ABR board exams, with ultrasound images presented in a clinical framework followed by board-format multiple-choice questions. Chapters are generally organized by organ systems and encompass all major areas. The text starts with two chapters covering the first and second trimesters of pregnancy. Subsequent chapters encompass pediatric, renal, hepatobiliary, musculoskeletal, breast, neck, and scrotal ultrasound. The final two chapters on miscellaneous topics and physics ensure a more comprehensive review"--

Sommario/riassunto	This book addresses the question of political legitimacy in the European Union from the much neglected angle of political responsibility. It develops an original communitarian approach to legitimacy based on Alasdair MacIntyre's ethics of virtues and practices, that can be contrasted with prevalent liberal-egalitarian and neo- republican approaches. Tsakatika argues that a 'responsibility deficit', quite distinct from the often discussed 'democratic deficit', can be diagnosed in the European Union. This is documented in chapters that provide in-depth analysis of accountability, transparency and
