Bikini fur and fur bikinis; 10. Women with beards in early modern Spain; 11. On Frida Kahlo's moustache: a reading of <i>Self-Portrait with Cropped Hair</i> and its criticism; Index
Sommario/riassunto	This is the first academic book ever written on women and body hair, which has been seen until now as too trivial, ridiculous or revolting to write about. Even feminist writers or researchers on the body have found remarkably little to say about body hair, usually ignoring it completely. It would appear that the only texts to elaborate on body hair are guides on how to remove it, medical texts on 'hirsutism', or fetishistic pornography on 'hairy' women. The last taboo also questions

how and why any particular issue can become defined as 'self-evidently' too silly or too mad to write about.
