Sommario/riassunto	In recent years the library community has seen a renewed interest in library architecture and design. This is due to the change of focus from content and collection development to how libraries engage with their

users in a digital age. This means that librarians, architects, politicians and patrons must develop new visions, concepts and ideas for the design and building of libraries. This book brings together a number of articles based on presentations from the IFLA World Congress 2009: historical view of the development of children's libraries over the last century, a look at how children use
