

1. Record Nr.	UNINA9910792009803321
Titolo	Advanced computational techniques in nanoscience [[electronic resource] /] / A.K. Haghi, F. Naghiyev, and S. Abdullayeva, editors
Pubbl/distr/stampa	[Hauppauge] NY, : Novinka, c2013
ISBN	1-62417-269-5
Descrizione fisica	1 online resource (133 p.)
Collana	Nanotechnology science and technology
Altri autori (Persone)	HaghiA. K
Disciplina	620/.5
Soggetti	Nanotubes Carbon composites Nanostructures
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 91-96) and index.
Nota di contenuto	Properties of carbon nanotubes -- Factors determining the processes in micro-and nanoscale systems: the main hypotheses and laws -- Peculiarities of the rheological properties and structure of the liquid in nanotubes -- Research methods of fluid flow in nanotubes -- Nanohydropneumatics application to problems of oil-field mechanics.
