1. Record Nr. UNINA9910792042903321

Titolo	Databases and information systems VII [[electronic resource]] : selected papers from the Tenth International Baltic Conference, DB & IS 2012 / / edited by Albertas Caplinskas ... [et al.]
Pubbl/distr/stampa	Amsterdam ; ; Washington, DC, : IOS Press, c2013
ISBN	1-299-33340-0 1-61499-161-8
Descrizione fisica	1 online resource (400 p.)
Collana	Frontiers in artificial intelligence and applications, , 0922-6389 ; ; v. 249
Altri autori (Persone)	CaplinskasAlbertas
Disciplina	005.74
Soggetti	Database management Information technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Title Page; Preface; Conference Committee; Contents; Invited Papers; Exponential ICT-Growth: Will It Last?; Viable Systems Model in Information Systems Development; Databases; A Variability Model for Query Optimizers; GeoLoc: Robust Resource Allocation Method for Query Optimization in Data Grid Systems; Advanced OWL 2.0 Ontology Visualization in OWLGrEd; Data Mining and Optimisation in IS; Mining Logs for Long-Term Patterns; Combining Data Mining Technique and Query Frequencies for Automatic Selection of Indexes in Data Warehouses On Proving the Concept of an Ontology Aided Software Refactoring ToolThe Influence of Data Quality on Clustering Outcomes; Visualization of Graph Structures with Magnetic-Spring Model and Color-Coded Interaction; Applying User Domain Model to Improve Web Recommendations; Business Modelling; Formal Analysis of Problem Domain Workflows; Towards Human-Executable Business Process Modeling; Traversal and Relations Discovery Among Business Entities and People Using Semantic Web Technologies and Trust Management; Formal Specification of Topological Relations; Cloud Computing and E-Service Mobile Agents for Integrating Cloud-Based Business Processes with

On-Premises Systems and DevicesA Semantic Method of Automatic Composition of E-Government Services; Communication Channel Choice Between Enterprises and Government; Software Evaluation and Testing; An Evaluation Framework for Software Test Management Tools; Software Self-Testing; Semi-Automatic Generation of a Software Testing Lightweight Ontology from a Glossary Based on the ONTO6 Methodology; Decision Support Systems, Norms, and Reasoning; Qualitative Reasoning About Space with Hybrid Logic
Modeling Operationalization of Normative Rules in Decision Support for Aircraft Approach/DepartureIS Engineering Tools and Techniques; Handling Server-Side Software Versioning: The ""Smart Technology"" Approach; Architectural and Technological Issues in the Field of Multiple Monitor Display Technologies; Specification, Configuration and Implementation of DSL Tool; Advanced E-Learning Environments and Technologies; A Model for Personalized Selection of a Learning Scenario Depending on Learning Styles
An Information System to Learn Characteristic Sets of Words and to Examine Knowledge in StatisticsResearch on the Extended Metadata Model of Methodological Digital Resources; Subject Index; Author Index
