The trade aspects of risk and the risk aspects of trade deserve more systematic and genuine interdisciplinary attention if we are to really understand the global, international and supranational dimensions of risk regulation. This book brings together legal and social science research on risk regulation from across the world to explore risk regulation in a trade context. The interdisciplinary collaboration provided in this book is needed to address the trade versus risk balancing act both in empirical and theoretical terms. Although it is obvious that legal, social, cultural a
