Sommario/riassunto

This book begins the first multi-volume biography of Samuel Clemens to appear in over a century. In the succeeding years, Clemens biographers have either tailored their narratives to fit the parameters of a single volume or focused on a particular period or aspect of Clemens's life, because the whole of that epic life cannot be

compressed into a single volume. In *The Life of Mark Twain*, Gary Scharnhorst has chosen to write a complete biography plotted from beginning to end, from a single point of view, on an expansive canvas. With dozens of Mark Twain biographies available, what is left unsaid? On average, a hundred Clemens letters and a couple of Clemens interviews surface every year. Scharnhorst has located documents relevant to Clemens's life in Missouri, along the Mississippi River, and in the West, including some which have been presumed lost. Over three volumes, Scharnhorst elucidates the life of arguably the greatest American writer and reveals the alchemy of his gifted imagination.

Sommario/riassunto	The Hausa are one of the largest ethnic groups in Africa, with populations in Nigeria, Niger, and Ghana. Their long history of city-states and Islamic caliphates, their complex trading economies, and their cultural traditions have attracted the attention of historians, political economists, linguists, and anthropologists. The large body of

scholarship on Hausa society, however, has assumed the subordination of women to men. *Hausa Women in the Twentieth Century* refutes the notion that Hausa women are pawns in a patriarchal Muslim society. The contributors, all of whom have done field research in Hausaland, explore the ways Hausa women have balanced the demands of Islamic expectations and Western choices as their society moved from a precolonial system through British colonial administration to inclusion in the modern Nigerian nation. This volume examines the roles of a wide variety of women, from wives and workers to political activists and mythical figures, and it emphasizes that women have been educators and spiritual leaders in Hausa society since precolonial times. From royalty to slaves and concubines, in traditional Hausa cities and in newer towns, from the urban poor to the newly educated elite, the "invisible women" whose lives are documented here demonstrate that standard accounts of Hausa society must be revised. Scholars of Hausa and neighboring West African societies will find in this collection a wealth of new material and a model of how research on women can be integrated with general accounts of Hausa social, religious, political, and economic life. For students and scholars looking at gender and women's roles cross-culturally, this volume provides an invaluable African perspective.--Publisher description
