Sommario/riassunto

Your complete guide to the Joomla! content management system
Whether you use Joomla! to power a website, intranet, or blog, you'll need a good how-to reference on this complex, but not always intuitive, content management software. Joomla! Bible, Second Edition is that book. It not only brings you up to speed on the changes and extensions that are now part of Joomla! 3.0, it thoroughly covers functions and tasks, including installation, configuration, management, advanced modules, and extended coverage of two key extensions, JomSocial and VirtueMart. You'll learn how to o
