

1. Record Nr.	UNINA9910792191903321
Titolo	Foodborne infections and intoxications
Pubbl/distr/stampa	Amsterdam ; ; Boston, : Elsevier/AP, 2013 London : , : Academic Press, , 2013
ISBN	1-299-31643-3 0-12-391476-0
Edizione	[4th ed.]
Descrizione fisica	1 online resource (xxxi, 541 pages) : illustrations (some color)
Collana	Food science and technology, international series
Disciplina	615.954
Soggetti	Foodborne diseases Food poisoning Food - Microbiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	section 1. Foodborne disease : epidemiology and disease burden -- section 2. Foodborne infections : bacterial -- section 3. Foodborne infections : viral -- section 4. Foodborne infections : parasites and others -- section 5. Intoxications -- section 6. Policy and prevention of foodborne diseases.
Sommario/riassunto	The accelerated globalization of the food supply, coupled with toughening government standards, is putting global food production, distribution, and retail industries under a high-intensity spotlight. High-publicity cases about foodborne illnesses over recent years have heightened public awareness of food safety issues, and momentum has been building to find new ways to detect and identify foodborne pathogens and eliminate food-related infections and intoxications. This extensively revised 4e covers how the incidence and impact of foodborne diseases is determined, foodborne intoxications with
