Germany and Europe: Finding an International Role -- Postscript. Creative Chaos: Concluding Thoughts on Interdisciplinary Cooperation -- List of Contributors -- Index
Sommario/riassunto	The unification of Germany is the most important change in Central Europe in the last four decades. Understanding this rapid and unforeseen development has raised old fears as well as inspired new hopes. In order to make sense out of the bewildering process and to help both expert and lay readers understand the changes and consequences, an American historian and a German social scientist put together this collection of central texts on German unification, the first of its kind. An invaluable reference tool.
