

1. Record Nr.	UNINA9910792251803321
Autore	Heilman Kenneth M. <1938->
Titolo	Matter of mind [[electronic resource]] : a neurologist's view of brain-behavior relationships / / Kenneth M. Heilman
Pubbl/distr/stampa	Oxford ; ; New York, : Oxford University Press, c2002
ISBN	1-4294-4020-1 0-19-803309-5 9786610835393 1-280-83539-7
Descrizione fisica	1 online resource (239 p.)
Disciplina	616.8
Soggetti	Higher nervous activity Neurobehavioral disorders Neuropsychiatry Neuropsychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; 1. Introduction; 2. Language; 3. Emotions; 4. Attention; 5. Self-Awareness; 6. Memory; 7. Cognitive-Motor Skills; 8. Sensory Perception and Recognition; 9. Conation and Intention; Index; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; R; S; T; U; V; W; Z
Sommario/riassunto	Most of what has been learned about how the brain mediates behaviour comes from experiments of nature where a stroke or other damage to the brain produces changes in a person's behaviour. In "Matter of Mind", one of the leading figures in behavioural and cognitive neurology uses patient vignettes and other examples from his rich professional life to show just how much knowledge about brain functions such as reading, writing, language, control of emotions, skilled movement, perception, attention, and motivation has been gained from the study of patients with diseases of or damage to the brain
