

1. Record Nr.	UNISA996386478103316
Autore	Keith George <1639?-1716.>
Titolo	The true copy of a paper given in to the yearly meeting of the people called Quakers [[electronic resource]] : at their meeting-place in Grace-Church-street, Lonon, 15 day of the 3d. month 1695. By George Keith, which was read by him in the said meeting, by their allowance. With a brief narrative of the most material passages of discourse betwixt George White-head, Charles Marshal, and George Keith, the said day, and the day following, betwixt George White-head, William Penn, and Francis Canfield on the one side, and George Keith on the other; ... Together with a short list of some of the vile and gross errors of George Whitehead, John Whitehead, William Penn, their chief ministers, and now having the greatest sway among them (being of the same sort and nature with the gross errors charged on some in Pensilvania) most apparently opposite to the fundamental doctrines of the Christian religion ... And a proposition to VWilliam Penn, to prove his charge, that G.K. is an apostate

Note generali	"A Council on Foreign Relations book."
Nota di bibliografia	Includes bibliographical references (p. [123]-125) and index.
Nota di contenuto	Proliferating preferential trade agreements -- Why has the pandemic broken out? -- Why PTAs are a pox on the world trading system -- What do we do now? -- Appendix -- Glossary.
Sommario/riassunto	Jagdish Bhagwati, the internationally renowned economist who uniquely combines a reputation as the leading scholar of international trade with a substantial presence in public policy on the important issues of the day, shines here a critical light on Preferential Trade Agreements, revealing how the rapid spread of PTA's endangers the world trading system. Numbering by now well over 300, and rapidly increasing, these preferential trade agreements, many taking the form of Free Trade Agreements, have re-created the unhappy situation of the 1930's, when world trade was undermined by discriminatory

Sommario/riassunto

Jebel Moya (south-central Sudan) is the largest known pastoral cemetery in sub-Saharan Africa with more than 3100 excavated human burials. This research revises our understanding of Jebel Moya and its context.
