Sommario/riassunto

The global developments in Information Technology Enabled Services have transformed customer service encounters which were until recently face-to-face. Major business areas of healthcare, insurance, banking and media are increasingly moving their customer processes to call centres, web based interaction, and email. ITES is set for explosive growth over the next decade, alongside being increasingly outsourced to non-English speaking destinations. The need for good English language communication skills is becoming ever more acute.

This book looks closely at interactive communication in customer-
